PETITE-17

PETITE-17 is a compact premium recessed COB spot light designed for focused and comfortable illumination in high-end interior applications. Featuring a durable die-cast aluminium luminaire housing with a premium powder-coated finish, it combines reliable performance with a refined appearance. Equipped with COB (Chip on Board) LED technology, precision miniature TIR lenses and effective colour rendering, PETITE-17 provides focused and controlled light distribution while reducing eye strain. Available in a fixed version with a 25° beam angle, it is particularly suitable for retail displays, reading areas, accent lighting and premium residential interiors. Each lens is housed in molded polycarbonate (PC) and securely attached to the PCB using locating pins or optional mounting clips to maintain physical integrity throughout the luminaire's service life. With 3000K, 4000K, 5700K options, PETITE-17 offers flexible lighting solutions with excellent lumen output and low energy consumption. With its compact 17mm outer diameter, 13.5mm cutout and 24mm height, Divinity Lights can also provide customized lighting solutions according to clients' specific requirements.
