

SILIONA 32 LINEAR

Siliona 32 Linear Luminaire with a slim extruded aluminum profile, silicon diffuser and premium powder-coated finish designed for modern interiors.

Featuring a unique linear profile, it is powered by high-quality LEDs with a binning tolerance of ≤ 3 SDCM and $\text{CRI} \geq 90$, ensuring vibrant and consistent illumination.

The luminaire maintains at least 70% of its luminous flux after 50,000 operating hours, ensuring long-term reliability. Its High-Performance Silicon diffuser delivers smooth and uniform illumination along the luminaire length.

With a standard 32 mm diameter and customizable lengths and shape, this fixture provides 280 degree light distribution, making it ideal for professional applications.

Available in customizable RAL finishes, wattages, and lengths to suit various design and functional requirements.
