TUCSON-S POST TOP

TUCSON-S POST TOP is a modern architectural post-top luminaire designed for outdoor pole-mounted applications, combining a distinctive decorative form with durable construction and efficient illumination. The fixture features a die-cast aluminium housing with a decorative crown-like structure that provides both an elegant appearance and effective heat dissipation. A die-cast aluminium heat sink supports thermal management, while the clear glass diffuser delivers controlled and uniform light distribution. The fitting is powder coated for enhanced durability and can be supplied in custom RAL colours.

With a 343mm pole height and approximately 555.5mm J-hook height, TUCSON-S POST TOP is suitable for landscape pathways, resort entrances, hotel driveways, gardens, parks, pedestrian walkways, commercial outdoor spaces and architectural landscape lighting.

Divinity Lights provides customized lighting solutions according to clients' specific requirements, with suitable mounting configurations, finishes and dimensions for different outdoor architectural applications.
